Biometrics Ltd manufactures variations of DataLITE*, DataLOG and DataLINK (sensors and instruments) for Data Acquisition which are CE marked medical devices in Europe, independently certified to Safety Standard of the International Electrotechnical Commission IEC 60601-1:2005 + A1:2012 and BS EN 60601-1:2006 + A1:2013, conforming to the European Medical Device Directive 93/42/EEC as amended by Directive 2007/47/EC, conforming to the council Directive relating to Electromagnetic Compatibility by the application of BS EN 60601-1-2. Other variations are available as non medical devices.

Biometrics Ltd K800 Amplifier for Data Acquisition, Movement analysis and EMG used in Research Environments (sensors and instruments) is independently certified to Safety Standard of the International Electrotechnical Commission IEC 60601-1:1988 including Amendments 1 & 2, EN 60601-1:1990 including Amendments A1, A2 & A13, BS 5724-1:1989 including Amendments 1, 2 & 3 and conform to the council Directive relating to Electromagnetic Compatibility by the application of BS EN 60601-1-2. However, in Europe, as the K800 Amplifier does not conform to the European Medical Device Directive 93/42/EEC as amended by Directive 2007/47/EC. It is not considered a medical device and is not for medical measurement purposes, or for use in the treatment and diagnosis of disease.

* DataLITE Advance and Explore not medically certified
